Timesheet Generation
Automated timesheets reduce manual effort and errors.
Overtime Management
Track and approve overtime hours, ensuring compliance.

supervisors to calculate and process employee salaries. This may include calculation, CPF contributions, and tax deductions.
features like basic salary

- Automated Payroll Calculations (Paid): The paid version automates complex payroll

  calculations, including allowances, deductions, and statutory contributions (CPF, SDL, etc.), ensuring accuracy and compliance with Singaporean regulations.
- Payroll Reporting (Paid): Generate detailed payroll reports for accounting and

  compliance purposes. These reports can be customized to meet specific business needs.
- Integration with Accounting Software (Paid): Seamlessly integrate payroll data with

  popular accounting software packages, streamlining financial management.
- Payslip Generation and Distribution (Paid): Automatically generate and distribute electronic payslips to employees, reducing paper waste and improving efficiency.

4. Employee Management

- Employee Database: Maintain a centralized database of employee information, including contact details, job titles, and performance records.
- Leave Management: Employees can submit leave requests through the app, and supervisors can approve or reject them with ease.
- Performance Tracking: Track employee performance metrics and provide feedback

  directly through the app.
- Task Assignment and Tracking: Assign tasks to employees and monitor their progress in real-time.

5. Reporting and Analytics

- Customizable Reports: Generate customizable reports on attendance, payroll, and employee performance.
- Data Visualization: Visualize key data points through charts and graphs, providing insights into workforce trends.
- Real-time Analytics: Access real-time analytics on employee attendance, productivity, and other key metrics.

6. Cost-Effectiveness

- Free Basic Features: The app offers a range of free features, making it accessible to businesses of all sizes.
- Affordable Premium Options: Premium features, such as automated payroll and advanced reporting, are available starting from just SGD 1 per month per user.
- Reduced Administrative Costs: By automating many manual tasks, the app helps reduce administrative costs and improve efficiency.

7. Compliance with Singaporean Regulations

- CPF Compliance: The app ensures compliance with CPF regulations, automatically calculating and deducting CPF contributions.
- Tax Compliance: The app helps businesses comply with Singaporean tax laws, accurately calculating and deducting income tax.
- Labor Law Compliance: The app helps businesses comply with Singaporean labor laws, such as those related to overtime and leave.

8. User-Friendly Interface

- Intuitive Design: The app features an intuitive and user-friendly interface, making it easy for supervisors and employees to use.
- Easy Navigation: The app is designed for easy navigation, allowing users to quickly find the information they need.
- Mobile-Optimized: The app is optimized for mobile devices, ensuring a seamless user experience on smartphones and tablets.

9. Security

- Data Encryption: All data is encrypted to protect sensitive employee information.
- Secure Authentication: The app uses secure authentication methods to prevent unauthorized access.
- Regular Security Updates: The app is regularly updated with the latest security patches to protect against vulnerabilities.

10. Scalability

- Suitable for Businesses of All Sizes: The app is suitable for businesses of all sizes, from small startups to large enterprises.
- Scalable Architecture: The app's architecture is designed to scale as the business grows.

Pricing

- Free Plan: Includes basic attendance tracking, employee database, and basic payroll features.
- Premium Plan: Starting from SGD 1 per month per user, includes automated payroll calculations, advanced reporting, integration with accounting software, and other premium features.

Conclusion

This supervisor mobile app offers a comprehensive solution for managing employees, tracking attendance, and processing payroll in Singapore. With its free basic features and affordable premium options, it is a cost-effective and efficient tool for businesses of all sizes. By streamlining supervisor tasks and improving employee management, this app can help businesses enhance their overall operational efficiency and achieve their goals.
